visual puppet theater show with live music based on the pictorial work of Julio / Saúl Dias

SYNOPSIS

Based on Julio's paintings, we went on a journey through what we call the emotional framework, a joint quest to put on stage much of the emotion each work of art contains; each color, each shape.

And from a painting to a show, there are many perspectives from many other artists who bring to stage what affects them in the author's painting.

Set design, costumes, puppets, illustrations, sound, music, light, shadows, are just some of the elements that are part of this new dimension which, besides from introducing the artist, is in itself a living artwork that arises from many perspectives and many sensibilities.

TEATRO E MARIONETAS DE MANDRÁGORA

Teatro e Marionetas de Mandrágora is a professional puppet theater company, founded on 2 April 2002, directed by **Clara Ribeiro** and **Filipa Mesquita** and **enVide neFelibata** as art direction.

■ In the symbiosis of a symbolic language that combines heritage and traditional legacy with the contemporary society's thinking and dynamics, in a dialogue that's not always peaceful, a fundamental element emerges: the puppet — the tool used in our quest for our own cultural identity.

■ Our goal is to discover the puppet's own aesthetic, visual, scenic, and dramatic potential, as well as in the relation between actor and puppet. In this experience, we intend to find our own identity-based dramaturgy: the one that explores culture, belief, and folklore combined with the urban area, the technological exploitation and the global village's fast pace.

■ Throughout our artistic journey, we created a wide range of proposals, both in terms of audiences (adults, youngsters schoolchildren, families) and in terms of training (basic and specialized).

■ One of our major commitments is touring our projects, through the country and aboard. We constantly concern on decentralization, community work, partnerships, social and inclusive enhancement.

■ For over two decades, the Company firmly established itself as a contemporary artistic creation structure by putting on a wide range of shows. Some creations our own, others resulted from partnerships with national and foreign cultural structures and entities.

■ Our team has always had space to freely create according to each other's language and vision, converging to develop and enrich the puppet theater's art.

■ Our Company focuses on social vulnerabilities but also traditions and heritage trough different but converging sights. Dialogue with all different audiences, blend our creations with sites and spaces, intersect with partner entities and structures is essential for creating multidisciplinary projects that prioritize communication with spectators.

■ We would like to highlight our collaboration with numerous educational service teams while implementing our education activities program in institutions such as monuments, museums, and landmark buildings.

■

■ *Teatro e Marionetas de Mandrágora is supported by República Portuguesa – Cultura, Juventude e Desporto / Direção-Geral das Artes, Município de Espinho / Museu Municipal de Espinho e Município de Gondomar. The structure is based at FACE - Fórum de Arte e Cultura de Espinho and headquartered in Gondomar.*

PRESENTATION

We're inside her house — in her inner home. We're invited. Feels good to be in her home — it's tranquil and peaceful. There are paintings on the walls that come alive and dance between frames and edges in an innocent whirling. When the light goes off, thinking lights on: and a frenzy of images invades the house and its guests. There is feast and dancing in this house. Beyond the windows, there are people who celebrate the act of being together.

She is the owner of the house, the owner of the artwork, the muse.

ROOT CREATION

Original projects that aim to promote a broad artistic language and creative freedom for creators to challenge themselves artistically and dramatically, as well as in the exploration of interpretation, puppetry, and object theater. These creations are a fundamental reflection of their creators' concerns.

We decided on this designation due to the genesis of the name that gives us rise — Mandrake (Mandrágora), a plant associated with a certain mysticism. That root is also the origin point of our structure, which, in a very many-skilled way, branches out in diverse paths. We're a creative team that considers and analyzes each other's personal concerns and also challenges itself that lead to discoveries which affirm the art of theater and, more specifically, of puppetry.

More than two decades later, this form and figure emerged in a long process of discovery. We went through collective creations, invited directors, and gave voice to the artists who make up the creative core of the structure. Therefore, we believe we've achieved a clearer way of indicating the potential paths and trajectories of a collective composed by individual choices.

TESTIMONIALS

The artistic creation.

The show plays with the painting and places it in a theatrical space, where three-dimensionality and sound allow the figures to be set in motion, highlighting them from the canvas, playing with all the symbolism that the art of puppetry and the art of painting allow. This creation is a revisiting of the artwork, where other artists look at of the painter's creation and observe what's been captured through his artistic legacy, which is present in various museums such as Julio Gallery and Soares dos Reis National Museum.

This is also a journey through territories, his hometown Vila do Conde and Évora city, where he came into contact with Estremoz's traditional pottery.

The artistic creation that we delve into through Julio's work, aims to reflect on its pressing value of influence and artistic convergence of an era, but above all, a vision of society through the gaze of a canvas that ponders not only what is observed, but above all what is felt.
