7 Headed Beast

TEATRO E MARIONETAS DE MANDRÁGORA

Teatro e Marionetas de Mandrágora is a professional puppet theater company, founded on 2 April 2002, directed by **Clara Ribeiro** and **Filipa Mesquita** and **enVide neFelibata** as art direction.

- In the symbiosis of a symbolic language that combines heritage and traditional legacy with the contemporary society's thinking and dynamics, in a dialogue that's not always peaceful, a fundamental element emerges: the puppet — the tool used in our quest for our own cultural identity.
- Our goal is to discover the puppet's own aesthetic, visual, scenic, and dramatic potential, as well as in the relation between actor and puppet. In this experience, we intend to find our own identity-based dramaturgy: the one that explores culture, belief, and folklore combined with the urban area, the technological exploitation and the global village's fast pace.
- Throughout our artistic journey, we created a wide range of proposals, both in terms of audiences (adults, youngsters schoolchildren, families) and in terms of training (basic and specialized).
- One of our major commitments is touring our projects, through the country and abroad. We constantly concern on decentralization, community work, partnerships, social and inclusive enhancement.
- For over two decades, the Company firmly established itself as a contemporary artistic creation structure by putting on a wide range of shows. Some creations our own, others resulted from partnerships with national and foreign cultural structures and entities.
- Our team has always had space to freely create according to each other's

language and vision, converging to develop and enrich the puppet theater's art.

- Our Company focuses on social vulnerabilities but also traditions and heritage through different but converging sights. Dialogue with all different audiences, blend our creations with sites and spaces, intersect with partner entities and structures is essential for creating multidisciplinary projects that prioritize communication with spectators.
- We would like to highlight our collaboration with numerous educational service teams while implementing our education activities program in institutions such as monuments, museums, and landmark buildings.
- *Teatro e Marionetas de Mandrágora is supported by República Portuguesa - Cultura, Juventude e Desporto / Direção-Geral das Artes, Município de Espinho / Museu Municipal de Espinho e Município de Gondomar. The structure is based at FACE - Fórum de Arte e Cultura de Espinho and headquartered in Gondomar.*

COMMUNITY PROJECT

The impact of artistic work on the community allows us to consider it an excellent tool for empowering vulnerable individuals. Several projects implemented by different artistic organizations lead us to conclude that there are integrative behavioral improvements in the community.

Government support for the development of various programs in this area is an important facilitating factor for various associations and institutions that actively address this issue, creating social development projects through art.

“The concept of Education through Art has been the subject of reflection by some educators, philosophers, and even historians, fitting into the emergence of ‘new values and concepts’ in contexts of social, economic, and ideological transformation. Thus, several writings have emerged, nationally and internationally, as a product of concern and reflection.” (Meira, 2015).

In line with this thinking, the work presented demonstrates the importance of artistic practice in communities that welcome individuals with different vulnerabilities, from different age groups.

Although Morin has a very clear view of our thought process and its “hidden principles,” his view of things and the world is distorted by beliefs and, above all, by the goal of lifting the veil on a widespread belief that individuals in situations of vulnerability only enjoy artistic contact as social positivism, without this being properly analyzed. The creator of art and their creative potential are fundamental in
