Constância Dolls

**in safeguarding intangible
heritage**

SYNOPSIS

The challenge of creating a theatrical project based on the heritage of a territory was an exciting one. A territory marked by the convergence of the Zêzere and Tagus rivers underpins the growth of this region, founded on maritime trade and the boats that crossed the rivers.

The proposal that came to us from the Caminhos do Médio Tejo program promoted the appreciation of the art of making these dolls, which have been rescued by the Municipality of Constância. New doll makers have been trained to continue this legacy, which stems from the genuine intention of providing children with an object for play, games, and identification.

TEATRO E MARIONETAS DE MANDRÁGORA

Teatro e Marionetas de Mandrágora is a professional puppet theater company, founded on 2 April 2002, directed by **Clara Ribeiro** and **Filipa Mesquita** and **enVide neFelibata** as art direction.

- In the symbiosis of a symbolic language that combines heritage and traditional legacy with the contemporary society's thinking and dynamics, in a dialogue that's not always peaceful, a fundamental element emerges: the puppet — the tool used in our quest for our own cultural identity.
- Our goal is to discover the puppet's own aesthetic, visual, scenic, and dramatic potential, as well as in the relation between actor and puppet. In this experience, we intend to find our own identity-based dramaturgy: the one that explores culture, belief, and folklore combined with the urban area, the technological exploitation and the global village's fast pace.
- Throughout our artistic journey, we created a wide range of proposals, both in terms of audiences (adults, youngsters schoolchildren, families) and in terms of training (basic and specialized).
- One of our major commitments is touring our projects, through the country and abroad. We constantly concern on decentralization, community work, partnerships, social and inclusive enhancement.
- For over two decades, the Company firmly established itself as a contemporary artistic creation structure by putting on a wide range of shows. Some creations our own, others resulted from partnerships with national and foreign cultural structures and entities.
- Our team has always had space to freely create according to each other's

language and vision, converging to develop and enrich the puppet theater's art.

- Our Company focuses on social vulnerabilities but also traditions and heritage through different but converging sights. Dialogue with all different audiences, blend our creations with sites and spaces, intersect with partner entities and structures is essential for creating multidisciplinary projects that prioritize communication with spectators.
- We would like to highlight our collaboration with numerous educational service teams while implementing our education activities program in institutions such as monuments, museums, and landmark buildings.
- *Teatro e Marionetas de Mandrágora is supported by Portuguese Republic – Culture, Youth, and Sports / Directorate-General for the Arts, Espinho Municipality / Espinho City Council, and Gondomar Municipality. The structure is based at FACE - Espinho Art and Culture Forum and headquartered in Gondomar.*

PRESENTATION

This project goes beyond promoting a tradition. It seeks to activate the cultural memory of the region by involving the community and stimulating interest in local heritage.

Women take on the role of making these figures. Girls in the past did not have toys, and it was from this need that dolls made of cane, wool, and fabric were born. This preserves the legacy of childhood history. Our proposal for intervention does not seek to replace, but rather to expand the artistic, playful, and educational dimension that these figures possess.

The scenographic component was fundamental here, with a miniature theater being built inside the skirt of a huge sculpture that refers to the figure of the traditional doll.

Another fundamental factor is the appreciation of figures and personalities from the region, such as Alexandre O'Neill, Vasco Lima Couto, and even the presence of the voice in the text written by Camões. However, we chose to take a bold path: who could these dolls represent, beyond the existing social structures and social stratification?

We opted for the representation of female personalities who have changed and influenced the national territory over time. We imprinted a concrete personality on these figures, traveled through different names and deeds, and allowed personalities such as D. Teresa de Leão, Amália Rodrigues, Florbela Espanca,

THEATER IN INSTITUTIONS

Since 2003, Teatro e Marionetas de Mandrágora has acted as a strategic partner in cultural mediation, implementing educational services that utilize puppetry as a vital tool for dialogue.

Our institutional programs are widely disseminated across the country, providing venues with pedagogical tools designed to bridge the gap between institutions and their visitors. These are sensory-driven performances that invite the audience to engage through participatory contemplation.

By promoting Educational Service programs through the art of puppetry, we establish a unique rapport with the public. We aim to foster a global mindset—encouraging audiences to reflect, ponder, and, above all, cultivate new cultural habits. Integrated into heritage promotion and the decoding of artistic languages for young audiences, this project champions the puppet as a powerful vehicle for communication and learning within educational settings.
