# Shelter Nest

**an art installation created by  
young visionaries**

## **SYNOPSIS**

*Through a materials workshop — which combines elements from nature with plastic materials — students test resistance, bonding and aesthetic composition. Each class imprints its unique vision on the house entrusted to it. Although the basic structure is common, the end result is an explosion of diversity, reflecting the visual and emotional identity of each group of children.*

*The final installation is not merely contemplative; it is interactive. As they walk through this ‘forest of shelters,’ visitors are invited on a sensory journey through 30 miniaturised worlds. The experience becomes polyphonic when they scan the QR codes, where they can listen to the stories that inspired the creation. Visitors do not merely see the work; they inhabit the story through sight and sound.*

# TEATRO E MARIONETAS DE MANDRÁGORA

Teatro e Marionetas de Mandrágora is a professional puppet theater company, founded on 2 April 2002, directed by **Clara Ribeiro** and **Filipa Mesquita** and **enVide neFelibata** as art direction.

■ In the symbiosis of a symbolic language that combines heritage and traditional legacy with the contemporary society's thinking and dynamics, in a dialogue that's not always peaceful, a fundamental element emerges: the puppet — the tool used in our quest for our own cultural identity.

■ Our goal is to discover the puppet's own aesthetic, visual, scenic, and dramatic potential, as well as in the relation between actor and puppet. In this experience, we intend to find our own identity-based dramaturgy: the one that explores culture, belief, and folklore combined with the urban area, the technological exploitation and the global village's fast pace.

■ Throughout our artistic journey, we created a wide range of proposals, both in terms of audiences (adults, youngsters schoolchildren, families) and in terms of training (basic and specialized).

■ One of our major commitments is touring our projects, through the country and abroad. We constantly concern on decentralization, community work, partnerships, social and inclusive enhancement.

■ For over two decades, the Company firmly established itself as a contemporary artistic creation structure by putting on a wide range of shows. Some creations our own, others resulted from partnerships with national and foreign cultural structures and entities.

■ Our team has always had space to freely create according to each other's

language and vision, converging to develop and enrich the puppet theater's art.

■ Our Company focuses on social vulnerabilities but also traditions and heritage through different but converging sights. Dialogue with all different audiences, blend our creations with sites and spaces, intersect with partner entities and structures is essential for creating multidisciplinary projects that prioritize communication with spectators.

■ We would like to highlight our collaboration with numerous educational service teams while implementing our education activities program in institutions such as monuments, museums, and landmark buildings.

■ *Teatro e Marionetas de Mandrágora is supported by República Portuguesa - Cultura, Juventude e Desporto / Direção-Geral das Artes, Município de Espinho / Museu Municipal de Espinho e Município de Gondomar. The structure is based at FACE - Fórum de Arte e Cultura de Espinho and headquartered in Gondomar.*

# SHELTER NEST

target audience : M/5 years

duration : 01h30

group : small workshop

premiere date : 2 March 2026 (Monday)

premiere location : EB1 Baguim do Monte x Gondomar x Porto

# PRESENTATION

What happens when a bird's refuge becomes the stage for a narrative?

The 'Ninho Abrigo' (Shelter Nest) project challenges students to convert birdhouses into literary microcosms. Based on short stories, students abandon their role as spectators to take on the role of artists and interpreters of the world.

In this installation, the birdhouse ceases to be a utilitarian object and becomes a diorama. The artistic challenge lies in three-dimensionality and the limits of space. By creating within a confined volume, children explore depth, perspective and detail.

Personalising these houses is an exercise in symbolism. Here, textures and colours tell stories without the need for words. Art thus becomes the most powerful tool for interpreting and constructing reality.

The 'Nest Shelter' is not an isolated work, but rather a process of collective construction and school collaboration. The process begins with active listening. The class immerses itself in the story, decoding metaphors and identifying the pillars of the narrative.

## SMALL WORKSHOP

Puppets, while often associated with childhood, are deeply woven into our collective imagination, history, and tradition. This art form offers an inexhaustible wealth of theatrical experiences, constantly renewing itself through innovative creation and manipulation on the modern stage.

It is essential for educators to equip themselves with the specialized knowledge needed to facilitate these experiences. By exploring diverse materials and construction techniques, teachers can provide students with the tools to develop original creative work, transforming the classroom into a laboratory for theatrical discovery and artistic expression.
